

## ECMOS 2.0 – Making small automation tasks quick and easy!

Our ECMOS control is the right solution when it comes to automating small applications with little effort. A total of up to 4 sensors can be used with max. 8 valves can be connected.

- Universally applicable for many industrial applications
- Plug & Play enables easy assembly and quick use
- Power supply via mains plug or PLC
- Easy programming
- Space-saving
- Integrated counting function and timer

- ① Connections for Sensors
- ② Main connection 24 V DC; max. 3,5 A
- ③ Connections for valves max. 8 W pro Ventil

### Technical Specifications:

Dimensions (L x B x H):	ca. 160 x 60 x 80 mm
Weight:	0,5 kg
Degree of Protection:	IP65
Power Consumption:	24 V DC ; max. 3,5 A
Power Supply:	24 V DC M12x1
Number of Inputs:	4 x M12x1
Number of Exits:	4 x M12x1
Operating Temperature:	+10 °C bis +50 °C

### Exemplary programming:

- When the specified final value of the counter is reached, the output is switched for the individually programmed duration (with counter function)
- With a pulse, the output is switched for the individually programmed duration (without counting function)
