CLEAN AND COMPACT DESIGN

- Integrated turbine housing for maximum compactness and protection of the mechanical components.
- Anti-scoff swivelling wheels with parking brake for safety and maneuverability.

EASE OF USE

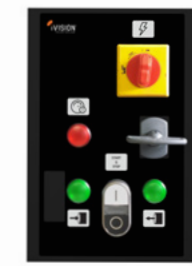

- Loading/emptying command controlled by a lever-operated system, integrated with electronic controls.
- Innovative and intuitive quickness of operation thanks to the integration of the functions in the control panel.
- Indicating lights to support the main functions of the vacuum cleaner.

HIGHLY TECHNOLOGICAL ELECTRONIC SYSTEM

- Electronic float that automatically stops suction to prevent overfilling.
- Electronic safety system designed to protect the turbine from any incorrect use.
- Superb efficiency to minimize machine idle time and oil recovery time.
